HARSHA VARDHAN VALLABHANENI

Software Tester & QA Engineer

CONTACT INFORMATION:

Email: harshavardhanvallabhaneni@email.com

Phone: +91 8919454776

Location: Hyderabad, Telangana

LinkedIn: linkedin.com/in/harsha-vardhan-vallabhaneni

PROFESSIONAL SUMMARY:

Experienced Software Tester with 2+ years of expertise in the Insurance domain. Proven track record in comprehensive testing strategies, automation frameworks, and quality assurance processes. Skilled in manual testing, API testing, automation, and direct client communication. Successfully managed solo QA projects and collaborated effectively in team environments. Successfully managed 3 solo QA projects simultaneously. Specialized in insurance business logic, vendor integrations, and application migration testing.

CORE COMPETENCIES:

- Manual Testing & Test Case Design
- Automation Testing (Selenium, Java)
- API Testing (SoapUI, REST APIs)
- Insurance Domain Expertise
- Client Communication
- Test Strategy & Planning
- Regression Testing & Framework Development
- Backend Validation & Data Verification
- Security Testing (MFA Systems)
- Application Migration Testing
- Defect Management & Lifecycle
- Agile Methodologies

Tools: ALM, LeanKit, TestNG, Maven, Eclipse, SQL, SoapUI

PROFESSIONAL EXPERIENCE:

Programmer Analyst | Cognizant Technology Solutions (CTS)

September 2024 - Present

- Worked with Client-Vendors for API testing, Manual and using SoapUI.
- Design and execute comprehensive test cases leveraging automation tools
- Implement custom-built automation tools to optimize task management and boost output
- Author code fixes and enhancements for inclusion in future code releases and patches
- Maintain high-quality deliverables through rigorous testing and validation processes

Programmer Analyst Trainee | Cognizant Technology Solutions (CTS)

September 2023 – September 2024

- Collaborate directly with clients during design sessions to identify project needs
- Developed expertise in insurance domain applications and business processes
- Optimize project workflows utilizing LeanKit and ALM tools for enhanced efficiency

Internship | Cognizant Technology Solutions (CTS)

March 2023 – August 2023

- Gained foundational experience in software testing and quality assurance
- Participated in training programs for automation tools and testing methodologies

KEY PROJECTS

New LOB Insurance Testing | Team member & QA Analyst

Duration: 8 months | Team Size: 8 members

- A comprehensive manual testing of new LOB in insurance domain known as WCA.
- Designed end-to-end test cases for new insurance product line from scratch.
- Coordinated test execution activities across different testing phases with 7 team members.
- Conducted functional, integration, and user acceptance testing.
- Managed complete defect lifecycle and coordinated resolution with development team.
- Created comprehensive test documentation and reviewed with team.
- Achieved zero critical defects in production deployment for 6 releases.

Insurance API Quotability Testing | Solo QA Engineer

Duration: 1.5+ Years | Solo Contributor

- Managing end-to-end API testing project to validate insurance quotability across multiple vendor integrations.
- Performing comprehensive manual testing of various vendor UI interfaces.
- Conducted extensive API testing using SoapUI for insurance quotability validation.
- Validating backend data consistency and accuracy across different vendor systems.
- Handling complete QA lifecycle independently with direct client communication and reporting.
- Created and maintained detailed test documentation and validation reports.
- Successfully validated quotability across all vendor integrations.
- Identified and resolved critical API integration issues for 10 releases to Production.
- Still Working on this project with 0 defect leakage and escalations.

MFA System Testing - Hanover Client | Solo QA Engineer

Duration: 8 months | Solo Contributor

- Designed comprehensive test strategy for Multi-Factor Authentication (MFA) system functionality.
- Performed extensive manual testing of authentication flows and security scenarios.
- Developed automation scripts using Selenium for regression testing with new developed Framework from ground up.
- Handled direct client communication, demos, and requirement discussions.
- Created detailed test reports, security documentation, and client presentations.
- Successfully delivered secure and reliable authentication system.
- Developed reusable automation suite for ongoing MFA testing using Selenium.

Application Rewrite Testing (VB Script to Java) | Solo QA Engineer

Duration: 5 months | Solo Contributor

- Led complete testing of application rewrite project migrating legacy VB Script to modern Java architecture.
- Conducted comprehensive manual testing of rewritten application functionality manually.
- Validating 100% functional parity between legacy and new Java-based systems.
- Managing client communication throughout entire migration project lifecycle.
- Still Working on this project with 0 defect leakage and escalations.

TECHNICAL SKILLS

Testing Types:

- Manual Testing
- Automation Testing

- API Testing
- Regression Testing
- Integration Testing
- User Acceptance Testing

Tools & Technologies:

- Automation: Selenium WebDriver, TestNG, Maven
- API Testing: SoapUI, REST Assured
- Programming: Java, Python
- Test Management: ALM, LeanKit, Excel
- Databases: SQL, Backend Validation

Domain Expertise:

- Insurance Industry (2+ years)
- Vendor Integrations
- Quotability Systems
- Multi-Factor Authentication
- Legacy System Migration (from VB Script to Java)

ACHIEVEMENTS:

- Successfully managing 3 solo QA projects with direct client interaction
- Achieved zero critical defects in production for New LOB Insurance project
- Worked in team of 8 members in complex insurance domain testing
- Developed reusable automation frameworks reducing regression testing time by 40%
- Established robust testing processes for vendor API integrations
- Received positive client feedback for communication and testing quality across all projects
- Received multiple appreciations from the clients for exceptional work in testing.

EDUCATION:

S.S.C - Chigurupati Sri Krishnaveni, Vijayawada, India - 2017 - GPA: 9.3

Intermediate, MPC - Sarada Educational Institute, Vijayawada, India - 2019 - GPA: 9.6

B-TECH, ECE - Bharath Institution of Higher Education and Research, Chennai, India - 2023 - GPA: 8.9

PROFESSIONAL ATTRIBUTES:

- Strong analytical and problem-solving abilities
- Excellent client communication
- Self-motivated with ability to work independently on complex projects
- Team collaboration and leadership experience
- Detail-oriented with focus on quality deliverables
- Adaptable to new technologies and domain requirements
- Proactive approach to identifying and resolving issues
